

TRIANGLE

You enter an area filled with triangles. You take a look around the area. On the wall you spot an area with a massive list of strange numbers. Near that area you find the following expression.

18.(ignore).(X.Y)

There is also the following table:

FLOW	=	_____	→	_____, _____, _____
EXCEPTION	=	_____	→	_____, _____, _____
RANDOM EXPRESSION	=	_____	→	_____, _____, _____
GOVERNMENT	=	_____	→	_____, _____, _____

And inscription:

“You are to use the knowledge you’ve gained, along with the following numbers to fill the table. Then, you may proceed to the figure. Finally, when stuck, always think triangle!”

The list of strange numbers looked like it once had text next to it. The text had long since been erased. Underneath the numbers was an area with an image. The image covered quite a large area, perhaps it was important.
